

NEOCEAN

NEOCEAN, a Bluetech company offering profitable and sustainable solutions that are revolutionizing the world of navigation: **VERBOAT**.

ABOUT US

Designed by the company NEOCEAN, the OVERBOAT® offers a new way to navigate thanks to its cutting-edge technology. With electric propulsion and an automated hydrofoil system, anyone can now soar on water!

WHY INVEST IN OVERBOAT®?

Join the NEOCEAN community as a distributor/reseller:

- Take part in a rapidly-growing, profitable and environmentally-conscious market.
- Popularize hydrofoiling and make innovations accessible to all.
- Minimize your carbon footprint.
- Join a group that is redefining the boating industry in a responsible way.

THE OVERBOAT® CLEAN, SMART & ZEN

ZERO EMISSIONS

Respectful of the marine environment

ZERO NOISE

100% electric personal water craft

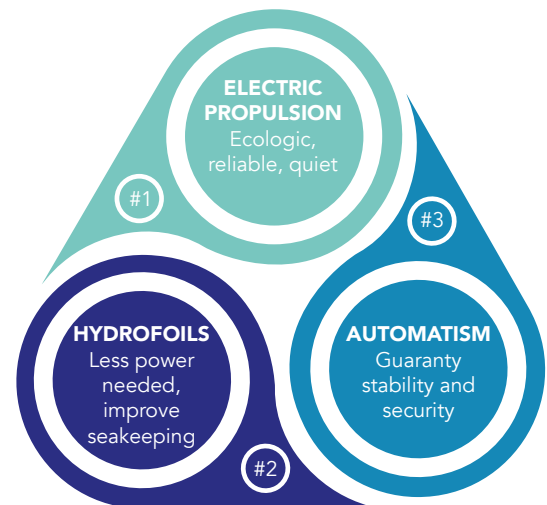

ZERO WAKE

Thanks to the hydrofoils

The OVERBOAT® is a reliable and innovative electric personal water craft, co-designed by JB Epron Design and Yacht Design Collective, an architecture firm.

Our technologies are centered around 3 major areas:

"It's fantastic! The OVERBOAT® is a water craft that gives you the sensation of being on a plane, but in complete safety. The experience is mind-blowing!" Bill Todd, NEEMO Project Manager, NASA.

THE COMBINATION OF 3 TECHNOLOGIES MAKES IT EXTREMELY COMFORTABLE TO NAVIGATE:

- Crossing capacity equivalent to a 5 m (16' 4") boat.
- Flight above chop, up to 0.5 m (1' 6").
- Quiet navigation.

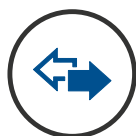

THANKS TO THESE TECHNOLOGIES, THE OVERBOAT® CONSUMES 20 TIMES LESS ENERGY THAN A JET-SKI!

- Reduction of 36 tons of CO₂eq over 5 years of use.
- No noise disturbances for the local residents or the marine wildlife.

STRONG POTENTIAL FOR MULTIPLE MARKETS:

RENTING AS A SOUND INVESTMENT

- | Rental base
- | Yacht club
- | Hotel & Resort

- > New offer for your customers: allows you to set yourself apart from your competitors.
- > Accessible to all in complete safety.
- > Commitment to sustainable development: ecotourism, environmentally-conscious navigation.
- > Easy to use: batteries are recharged using a standard outlet.

PUBLIC SECTOR

- | Military
- | Marine protected areas
- | Ports, marinas

- > Stealthy / can be used as a drone.
- > Eco-transport: personal transport, small connection, custodial service.
- > Scientific research and monitoring.
- > Version without hydrofoils: the OVERBOAT® Classic is adapted to shallow bodies of water with speed limits. This model is suitable for simple and professional use.

OTHER PROFESSIONAL USES

- | Rowing
- | Canoeing and kayaking
- | Sailing club

- > Accompany training sessions without disturbing.
- > No waves.
- > Positive image: environmentally responsible.

YACHT OWNERS

- | Personal water craft
- | Watertoy

- > Unique - Can be customized.
- > Easy to handle.
- > Both quiet and non-polluting, it allows to navigate marine parks without disturbing the marine wildlife.

As a NEOCEAN partner, you will benefit from numerous advantages:

- Reaching a **large audience** of professionals and private customers.
- **Selling water crafts** that are **unique and environmentally responsible**.
- Virtually no maintenance and use costs (**100% electric**).
- **Geofencing** to secure OVERBOAT® fleet management.
- **Training and technical support**.
- **2-year warranty** on parts and labor.

NEOCEAN® is committed...

to ocean protection, and has been awarded various labels:

- 1000 solutions for the planet by Solar Impulse Foundation (Switzerland)
- Green Tech Innovation by France's Ministry of the Ecological Transition
